

Alerts-General Programs-F2

Development Version: Crystal Reports XI, Service Pack 2

First Issuance Date: 11/26/2006.

Modification (2/14/07): Added parameter and group on case manager.

Modification (3/30/07): Changed Case Manager parameter to be dynamic; eliminated second user ID/password prompt. Changed report to use a Start Date parameter instead of the beginning of the fiscal year.

Modification (4/13/07): Removed dynamic case manager prompt.

Parameters: Career Center, Program, Start Date, Alert, Case Manager.

Parameter List of Values Updated Date: 4/13/07.

Key Features: The Alerts-General Programs report shows customers enrolled in a selected program found in the programs listed on the Basic tab in MOSES if they have unresolved automatic alerts. The report shows the customer ID, name, the date the alert was created, and a description of the alert. The report is organized by case manager, and you have the option of running the report for all case managers or for one.

If you wish to choose a certain type of alert to view, you may select one or more from a dropdown list; otherwise you should select "All".

Please note that there is a subreport at the end of this report that shows customers who have any unresolved manual alerts. If the subreport does not appear, it indicates there are no manual alerts to be resolved for this program.

Report Run Times: A few minutes to 30 minutes, depending upon the number of customers/alerts.

Report Feedback: This report has been tested for accuracy; however, we encourage your feedback--if you get unexpected results or have other suggestions, please contact the report developer below.

Report Developer: Linda Bass, lbass@detma.org, 617-864-1570.
