

## General Program Report - Residency-Regional-A

**Development Version:** Crystal Reports XI, Service Pack 2

**First Issuance Date:** 2/17/08.

**Parameters:** Region, Location Level (Career Center, Local Office), Program, Fiscal Year, Report End Date.

**Key Features:** The General Program Report-Residency-Regional can be used for most programs which are not specific to a career center. The report is run for a selected region, with a breakout by career or local office. The report shows the number of customers enrolled by the region, based on their residency in the home region, other regions, or out of state. Within the home and other region categories, there is a breakout by community. Percentages in all cases are the percentage of all enrollees in the region (NOT the percentage based on totals for a particular career center or location).

The report is based on all customers who are program participants during the report period, including carry-ins and new customers. Because the report does not rely on services delivered during the report period, but instead selects customers who have not yet been terminated or who are terminated during the report period, it will include customers who may not have received services recently, but who were not terminated from the program at a more appropriate time.

The report is organized by fiscal year, but should not be run for previous fiscal years, except for the prior year and then only if the current date is between July and December of the current fiscal year, since records may be archived after 18 months. The user can select a report end date within the fiscal year to allow the user to look at data as of the end of a month instead of year-to-date. Data for the previous months or the previous fiscal year will reflect the status of customers as of the report end date (either the selected report end date or the end of the selected fiscal year).

**Report Run Times:** Anywhere from 3 to 10 minutes.

**Report Feedback:** This report has been tested for accuracy; however, we encourage your feedback--if you get unexpected results or have other suggestions, please contact the report developer below.

**Report Developer:** Linda Bass, lbass@detma.org, 617-864-1570.
