

## ITA\_Approved\_Programs-Region-A

**Development Version:** Crystal Reports XI, Service Pack 2

**First Issuance Date:** 11/26/2006

**Modification:** N/A

**Parameter:** Region, Detail or Summary, Course Keyword.

**Parameter List of Values Updated Date:** N/A

**Key Features:** The summary view of the ITA Approved Programs-Region Report shows all courses approved for ITAs for a selected region, along with the course ID, course location (city), and start and end dates of course approval. Note that you may enroll customers in a program up through the end date for the course approval even if the course ends at some later date.

The detail view also shows course contact information, course description, course schedule information, self-reported performance, and course cost.

If you wish to see only certain types of courses, you can use a keyword to select courses. Courses with the keyword used in the course name will then be shown (regardless of case). For a comprehensive list, enter the basic component (root) of a word that will allow for variations in spelling e.g., use "account", instead of "accounting" or "accountant". If you wish to see all courses, you will enter "All" in the course keyword prompt.

**Report Run Times:** Anywhere from a few seconds (for a keyword search) to 5 to 8 minutes to search for all approvals in the region.

**Report Feedback:** This report has been tested for accuracy; however, we encourage your feedback--if you get unexpected results or have other suggestions, please contact the report developer below.

**Report Developer:** Linda Bass, lbass@detma.org, 617-864-1570.
