

ITA_Approved_Programs-Statewide

Development Version: Crystal Reports XI, Service Pack 2

First Issuance Date: 11/26/2006

Modification: N/A

Parameter: Course Keyword.

Parameter List of Values Updated Date: N/A

Key Features: The ITA Approved Programs-Statewide Report shows all courses approved for ITAs statewide, along with the course ID, course location (city), and start and end dates of course approval. Note that you may enroll customers in a program up through the end date for the course approval even if the course ends at some later date.

If you wish to see only certain types of courses, you can use a keyword to select courses. Courses with the keyword used in the course name will then be shown (regardless of case). For a comprehensive list, enter the basic component (root) of a word that will allow for variations in spelling e.g., use "account", instead of "accounting" or "accountant". If you wish to see all courses, you will enter "All" in the course keyword prompt.

Report Run Times: Anywhere from a few seconds to 2 minutes.

Report Feedback: This report has been tested for accuracy; however, we encourage your feedback--if you get unexpected results or have other suggestions, please contact the report developer below.

Report Developer: Linda Bass, lbass@detma.org, 617-864-1570.
