Statewide_Programs_and_CC_Specific_Programs-Pick_List

Key Features: This reports shows all customers who are currently active in the selected program or who terminated sometime after the selected start date. It also shows enrollment and termination dates for other programs in which they were active while participating in the selected program. At the left end of each row, the most recent training enrollment and (estimated or actual) completion dates are shown, along with the most recent job start date. The report contains "virtual" pages to the right, which are numbered like this: Page 1 - 1, where the second number represents the virtual page count. You can use these numbers to assemble the report after printing, creating a two- to three-page wide spreadsheet.

Report Run Times: A few minutes for a career center specific program, but up to 20 to 30 minutes for a general program with many active enrollments.

Report Feedback: This report has been tested for accuracy; however, we encourage your feedback--if you get unexpected results or have other suggestions, please contact the report developer below.
