

Return After Event-B

Development Version: Crystal Reports XI, Service Pack 2

First Issuance Date: 4/20/08. Adaptation of Return After CCS-N.

Parameters: Event, Exact Name, Location Level; Region; Career Center; Local Office; Start Date, Show Which Customers, Report Level (Summary/Detail), Sort Details.

Parameter List of Values Updated Date: N/A

Related Report: Use the **Return After CCS** for a report on returns after a Career Center Seminar, since that report checks for a service in the general services tab of MOSES, whether or not the service was entered as an event. The current report may be used for any services that are entered into MOSES as an event.

Key Features: This report shows customers who have participated in a selected event sometime on or after the specified start date and before the data date (the date the report is run). It identifies customers who did or did not return after the event for an OSCCAR approved support or job service at the same selected location; if run for all local offices, career centers, or regions, the return for service could be at any location. **Note that if a customer participated in the event more than once, only the most recent event date is shown and evaluated for a return after the event.**

The event prompt requires you to enter a keyword found in the event name. If you know the exact event name, you may enter that, in upper or lower case--it doesn't matter. If you select Exact Phrase = "Yes," only those events with the exact name that you enter will be returned. If you choose "No," event names that include the entered keyword will be returned, e.g., "Job Fair" would return "Job Fair at Sheraton," "How to Prepare for a Job Fair," and "Job Fair." Although a specific event might only be offered in a specific office, some events (with the same name) are offered in multiple offices. In the case of these more standard events, the report can be run for one specific region, career center, or local office, or for all regions or all career centers or all local offices. It can be run to show only those customers who did not return for services or to show all event participants. The number of days elapsed since the most recent service is shown, and contact info is provided (phone, e-mail). If run at the detail level, customers can be sorted either alphabetically or by days since their last service.

A summary view will show only a crosstab at the end of the report which shows the number and percent of customers returning for service by location and the number and percentage of returning or non-returning customers whose most recent service (either the event for non-returners or another service for returning customers) was within a 90 day period ending the day before the report was run. **Please note that this report does not distinguish customers who received a post-event service during the 90 days following the event from those whose first post-event service was more than 90 days after the event.**

Exporting: To export, suppress this report header by right clicking on the gray area to the left->check "Suppress (No Drill-Down)". Then choose the regular Excel export and use the Group Header #2 as the guide to the column width.

Report Run Times: A few minutes to about 5-10 minutes.

Report Feedback: This report has been tested for accuracy; however, we encourage your feedback--if you get unexpected results or have other suggestions, please contact the report developer below.

Report Developer: Linda Bass, lbass@detma.org, 617-864-1570.
