

## VWIP-L (Veterans Workforce Investment Programs - For Export to Excel)

**Development Version:** Crystal Reports XI, Service Pack 2

**First Issuance Date:** 4/6/2007

**Modified (10/8/07):** Allowed training course enrollments to be earlier than program enrollment as long as they overlap with program enrollment.

**Modified (10/11/07):** Changed age and recently discharged to compare to program enrollment date instead of report end date. Added crosstabs for gender, age groups, and years since discharge.

**Modified (10/15/07):** Added Program parameter so report can be used for VWIP I or VWIP II.

**Modified (10/25/07):** Allowed entered employments following exit to appear.

**Modified (12/6/07):** Added the option of grouping by career center.

**Modified (1/6/08):** Removed highlighting of entered employments after program exit; removed "still employed" column and summary; added training completion status column; added the option of a page break after each career center group; added summaries per career center; fine-tuned training running totals to require "In Training" = "Y".

**Modified (1/12/08):** Added campaign badges for Iraqi Freedom and Enduring Freedom and Desert Storm to report summary (at end only).

**Modified (2/5/08):** Changed prompt text to clarify how start date works.

**Modified (2/7/08):** Changed criteria for Referred to VA.

**Modified (2/9/08) :** Added Location Level, Career Center, and Local Office parameters. Added options to Group By parameter.

**Modified (2/15/08) :** Moved Referral to VA sub to improve speed.

**Parameters:** Location Level, Career Center, Local Office, Start Date, Report End Date, Program, Group By (Do Not Group, Career Center with Page Break After, Career Center without Page Break, Local Office with Page Break After, Local Office without Page Break).

**Key Features:** Note that this report is for export only. It is formatted to optimize exporting, and therefore, does not display as well as most reports. Once exported to Excel columns can be resized to show entire field.

The report is based on all customers who are program participants during the report period. Because the report does not rely on services delivered during the report period, but instead selects customers who have not yet been terminated or who are terminated during the report period, it will include customers who may not have received services recently, but who were not terminated from the program at a more appropriate time. If you choose a start date that corresponds with the first possible enrollment date for the program and an end date that is the current date, the report will include all enrollees regardless of termination status (as long as their records have not been archived). The fiscal year and quarter are shown for enrollment dates, exit dates, and employment start dates.

Employment information is shown for any jobs obtained during the program participation period, but summary counts are shown only for jobs obtained during the report period. Those jobs obtained while enrolled in the program, but prior to the report period are shown in Bold Italic, and do not contribute to counts. Training information (course enrollment) is displayed and counted for all participant activities occurring while enrolled (regardless of funding source), including training prior to and during the report period. Training activities completed prior to the report period are shown in Bold Italic. A crosstab at the end of the report shows the current active/exit status of customers according to the fiscal year, quarter, and month of enrollment and of exit.

For employment summaries, counts are for people not cases, i.e., a customer who gets two jobs within the report period is counted only once (and only the most recent job is displayed in the report.). Note that the entered employment numbers on this report will be higher than the Career Center Specific Report, since this report allows job placements to occur after exit, and the CC-Specific Report limits job placements to within one day after exit. For job retention, a customer is counted **if the most recent retention record shows continued employment (Note that retention in the Career Center Specific Report is based only on 30-day retention, while the current report identifies retention in the most recent record, regardless of follow-up period).** For training summaries, customers who enroll in more than one course are counted only once, and **only the most recent enrollment is displayed. Therefore, course status is counted only for the most recent enrollment. To see all course enrollments and the corresponding statuses, please see the Career Center Specific Program with Start Date report.**

Crosstabs at the end of the report provide summaries for people with disabilities, ethnicity, enrollment and exit date, age, gender, and years since discharge.. A set of running totals provide additional summaries.

**Exporting:** You probably will want to suppress this report header. You can do this by right clicking on the gray area to the left of the appropriate section->suppress (no drilldown). When exporting, select Group Header #2 as the field to determine the column width.

**Report Run Times:** About 3 minutes.

**Report Feedback:** This report has been tested for accuracy; however, we encourage your feedback--if you get unexpected results or have other suggestions, please contact the report developer below.

**Report Developer:** Linda Bass, lbass@detma.org, 617-864-1570.
