

Veterans Staff - Services to Non-Vets-A

Development Version: Crystal Reports XI, Service Pack 2

First Issuance Date: 2/21/08.

Parameters: Career Center, Show Customer Detail?, Start Date.

Key Features: This report show customers who are not veterans (have no Veteran Code) served by veterans staff. The user can run the report for all career centers or for one specific career center. If the user runs the report at the customer detail level, he/she can see customer names, type (support or job service) and date of the most recent service, whether disabled or not, whether they have a verified DD214, and their branch of the military. For each case manager, crosstab summaries show 1) a breakout of military branch and recently released status by DD214 or not , 2) whether they have a disability or not. At the end of the report, a crosstab shows all case managers by DD214 status and branch of customers served. Note that only vets staff who have served non-veteran customers appear in the report.

Please note that if the report is run statewide, the most recent service per customer will reflect the most recent service received anywhere. If it is run per career center, the most recent service will reflect the most recent service at that center.

Report Run Times: About 1 to 5 minutes.

Report Feedback: This report has been tested for accuracy; however, we encourage your feedback--if you get unexpected results or have other suggestions, please contact the report developer below.

Report Developer: Linda Bass, lbass@detma.org, 617-864-1570.
